In the advancing world the basic of making impression still remain an important step towards the success of the prosthesis. The overview of frequently used elastomeric impression implication and clinical demonstration broaden students insight for making impression even in difficult clinical scenarios.

Moreover the knowledge and clinical implication of Mouth guards which cover the teeth and some or all of the gingiva to dissipating forces and reduce the stresses and hence deflection of teeth. As well as reducing oral injuries, mouth guards act to protect teeth under excessive masticatory forces like bruxism. This course aims to help student to make elastomeric impression easy and review the use of mouth guards in bruxer, the common barriers to their use and also the different types of mouth guards and their characteristics.

Module 1

08:00-10:00AM: LECTURES

- Introduction to Impression Making
- Implication of Different Impression
- Demonstration of elastomeric impression making
- Introduction to mouth guard
- Different types of Mouth guards
- Fabrication of Mouth guards

10:00-10:30 AM: Tea break

10:30-12:30PM: Demonstration for Elastomeric impression making and Mouth Guard fabrication

12:30-02:30 PM: Patient's preparation and Case sheets

02:30- 03:30 PM: Lunch

03:30 -06:30 PM: Hands-on Elastomeric Impression making

06:30-08:30 PM: Hands-on for fabrication of Mouth guard

Module 2

09:00-11:00AM: Patient's Follow-up

11:00 – 11: 30 AM Tea break

11:30- 01:30 PM: Discussion and Analysis

Objectives achieved:

Under graduate student were given hand on demonstration for impression making and pouring the cast followed by Mouth guard fabrication. This workshop will orient student for making accurate impression and provide immediate mouth guard and facilitate students to acquire skills for reducing oral injuries as mouth guards act to retain any fractured or loosened teeth thus preventing their loss, inhalation or ingestion or in patient with grinding habit.

PERFORATION REPAIR - 2021

TITLE	**PERFORATION REPAIR**
SPEAKER	**DR DAKSHITA JOY SINHA**
DATE	**11-12th JUNE 2021**
MODULE 1: MODULE 2:	**LECTURE AND DEMONSTRATION** **HANDS-ON ACTIVITY**
HOURS	**16 HOURS**
TIME	**9:30am Onwards**
PARTICIPANTS	**160**

A Course was conducted on **Perforation Repair in Endodontics**. Perforation is an artificial communication between the root canal system and supporting tissues of the teeth. Root perforation complicates the treatment and deprives the prognosis if not properly managed. The course enlightened about the new root repair materials available. Therefore, this course was implemented in our department for students to make them aware of this method for better treatment outcome in clinics and successful endodontic treatment. The lecture and hands-on was conducted by Dr Dakshita Joy Sinha. The course was successfully attended by 160 participants.

Module 1

- Inauguration Diya was lit by the chief guest and organising committee members followed by Saraswati vandana by the students.
- Lecture was taken by Dr Dakshita Joy Sinha, on perforation repair, how to manage the cases and handling of newer introduced materials.

- The demonstration for the course was done under dental operating microscope.
- The perforation repair using new introduced materials was observed by all the post graduate students under the microscope.

Module 2:

- The Hands-on activity was performed by the Post Graduate students done under dental operating microscope on extracted teeth.
- Post hands–on all the queries were discussed and resolved in a group discussion.
- Felicitation was done for the guest speaker at the end of the course.
