EVENT REPORT: Scientific Writing & Beyond

Scientific Writing- Basic & Beyond

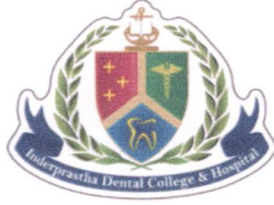

TITLE	Scientific Writing- Basic & Beyond
SPEAKER	Dr.Aman Chowdhry, Dr. Priyanka Kapoor, Dr. Deepika Bablani Popli
DATE	2 nd & 3 rd March 2023
TIME	2 nd March 2023- 8.30am to 4.30pm 3 rd March 2023- 9.00 am to 4.30pm
NO.OF PARTICIPANTS	50
ORGANISING SECRETARY	Dr.Mayura Paul

IPDC has effectively conducted programme “Scientific Writing- Basic & Beyond” which was attended by 50 post graduate students on 2nd and 3rd March 2023. The guest speakers for the programme were Dr. Aman Chowdhry (Professor, Department of Oral Pathology, Faculty of Dentistry, Jamia Millia Islamia University), Dr. Priyanka Kapoor (Professor & Incharge, Department of Orthodontics, Faculty of Dentistry, Jamia Millia Islamia University) and Dr. Deepika Bablani Popli (Professor, Department of Oral Pathology, Faculty of Dentistry, Jamia Millia Islamia University). On the first day, students were benefitted by the didactic lecture on IMRad (Introduction, Methods, Results & Discussion) & the various guidelines to convert library dissertation to article which was followed by the workshop on “Manuscript Check Tool”. This workshop enabled the students to have a knowledge to assess the quality of the manuscript along with the inter or intra-observer comparison. The second day started with yet another informative lecture on the ethics and protocol to be considered while doing any scientific writing. Students were introduced to a Zotero software for which hands-on workshop was conducted in which they understood the ease of referencing by abating the confusion during referencing while citing an article. Further on, there was another didactic lecture on plagiarism and paraphrasing which was followed by a workshop in which students were communicated about the various tools available for paraphrasing and the technique to use them.

This programme empowered the students about the diverse knowledge about the various tools available ranging from quality check till plagiarism check for good scientific writing.

EVENT REPORT: LASERS IN DENTISTRY

SUMMARY OF THE EVENT

TITLE	LASERS IN DENTISTRY
SPEAKER	Dr. Yash Raj Bahadur
DATE	14 th and 15 th December 2022
HOURS	15 hours
TIME	9:00am – 5:30 pm
COURSE CONTENT	Day 1 - :Lecture on Lasers : Introduction , Evolution, Principle, classification and Dental Applications : LIVE – Demonstration on patient for Endodontic Disinfection Day 2 - : Demonstration of Lasers for endodontic disinfection on Extracted tooth : Demonstration of use of lasers in dental surgical procedures : Hands – on Workshop for all the participants
PARTICIPANTS	103

A Lecture and Hands-on workshop was conducted by the Department of Conservative Dentistry and Endodontics on the topic "LASERS in Dentistry" on 14th and 15th December 2022 by Dr. Yash Raj Bahadur. Enthusiastic participation of BDS Final year and PG First Year students was seen and a total of 103 participants attended the program.

The lecture was conducted on the first day enlightened the students on the mechanism and principle of LASERS and its applications in dentistry. The speaker emphasized on various types and evolution of Lasers. A special emphasis was laid on disinfection in Endodontics. A live demonstration was conducted on a patient under dental operating microscope.

On the second day an elaborate demonstration on various applications of laser was done followed by hands on application performed by all the participants.

Satisfactory learning outcomes were achieved wherein the students understood the working principle of laser and were confident in handling the same for various dental applications. Based on the feedback evaluation the students agreed that the program was excellently organized, informative and useful. The hands-on experience was also very enriching.

SUMMARY- MINIMAL INTERVENTION TO MAXIMUM INVASION- A CLINICAL PERSPECTIVE

OBJECTIVE: The objective of the program is to educate the students and give an overview about the importance of stainless-steel crowns and strip crowns in pediatric patients, tooth preparation and crown adaptation and also about the materials which can be used for crown cementation and final restoration in patients

1	TITLE	MINIMAL INTERVENTION TO MAXIMUM INVASION- A CLINICAL PERSPECTIVE
2	SPEAKER	DR. PRIYANKA JAIN SIKKA
3	DATE	30 TH NOVEMBER- 1 ST DECEMBER, 2022
4	TIME:	9:00AM-5:00PM
5	NO. OF HOURS	16 HOURS
6	COURSE CONTENT	<p>Day 1: Lecture on SSC:-Introduction, Principle, Classification, Modification, Adaptation and cementation Live – Demonstration of SSC on typhodonts</p> <p>Day 2: Lecture on Anterior Strip Crowns:- Introduction, ,technique, tips and tricks, cementation Live – Demonstration of Anterior strip Crown on typhodonts</p>
7	NO. OF PARTICIPANTS	103
8	ORGANIZING SECRETARY	DR. MANISH BHALLA

OUTCOME: The outcome of the program was that the students were enthusiastic and ecstatic and had a better understanding and are pretty confident regarding the preparation, adaptation and cementation of crowns.

DR. MANISH BHALLA
ORGANIZING SECRETARY

Dental College & Hospital

REPORT OF THE EVENT

Dental caries is a highly prevalent disease, especially among young children. The care of decayed primary teeth is crucial due to their role in chewing, speaking, and functioning as natural space maintainers in the dental arch. The treatment of dental caries in the pediatric population is a long-standing issue that involves various challenges, like behavior management and the need for a perdurable treatment that lasts until tooth exfoliation.

Hence this lecture focused on Stainless steel crowns and strip crowns for restoration of decayed teeth and help little teeth to smile again.

Stainless steel crowns are the most commonly used restorative option for repairing and preserving the remaining tissue of severely damaged and decayed teeth. Stainless steel crowns have outperformed other materials, such as amalgam and composite, in terms of durability and longevity. This program aided participants in learning clinical procedure and its modifications. Additionally, this workshop assisted students in dealing with common errors that are usually encountered.

The bonded resin composite strip crown is perhaps the most esthetic of all the restorations available to the clinician for the treatment of severely decayed primary incisors. However, strip crowns are also the most technique-sensitive and may be difficult to place. The purpose of this CDE was to provide step-by-step technique and to present some simple clinical tips to assist the Participants in achieving an esthetic and superior outcome.

FEEDBACK REPORT

The event was excellently organized

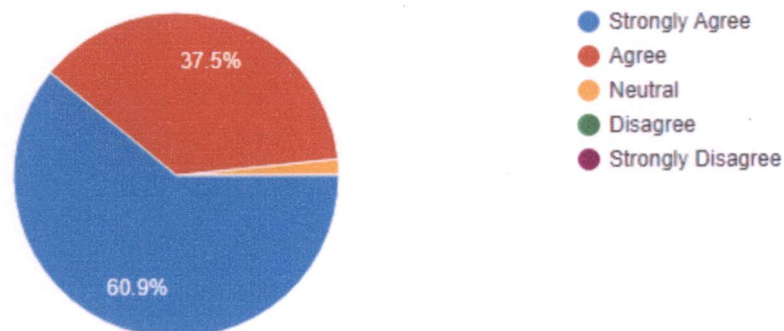

64 responses

Inference: Majority of the participants (59.4%) strongly agreed that the program was excellently organized.

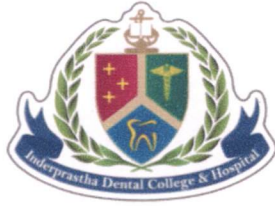

The education provided at this event consistently was very good or excellent

64 responses

Inference: 60.9% of the participants responded that they strongly agree that the program was educative and the knowledge disseminated was of excellent standards.

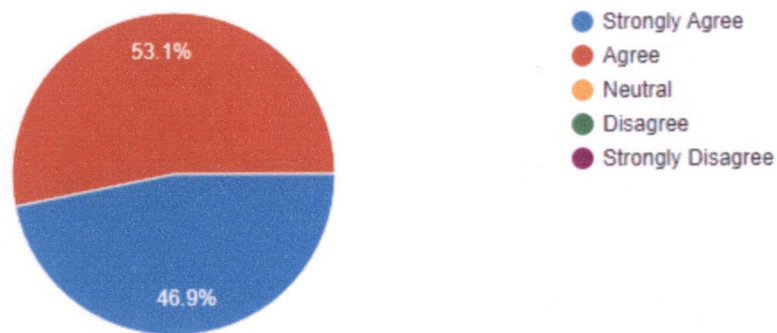

Inderprastha

Dental College & Hospital

There was sufficient time for discussion, questions & answer and learner engagement

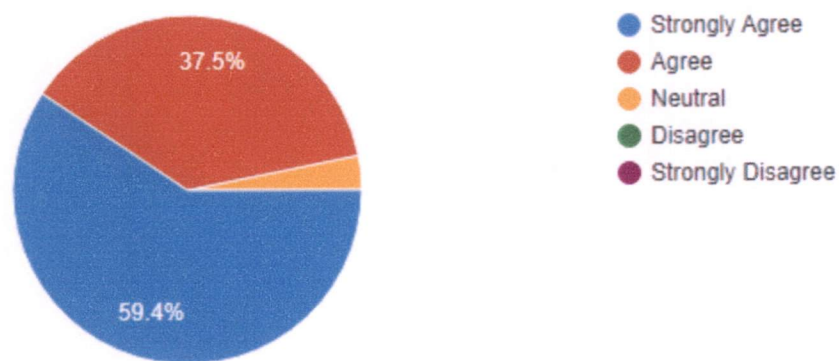

64 responses

Inference: The participants agreed that there was sufficient time available for learner engagement and discussions.

The Speaker consistently was very good or excellent

64 responses

Inference: The participants rated the speaker to be knowledgeable, consistent throughout the program and to be a good resource person.

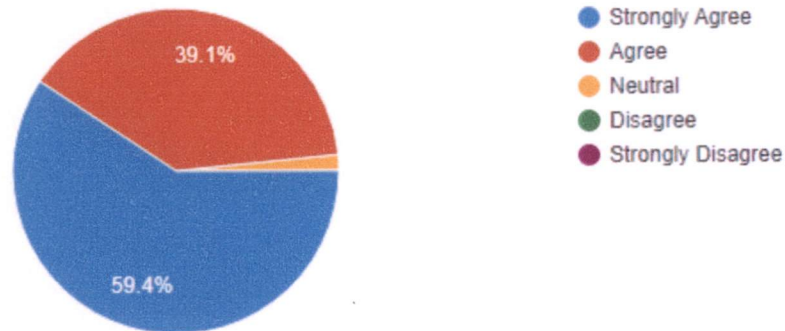

Inderprastha

Dental College & Hospital

I have learned information at this event that will help me improve my practical knowledge

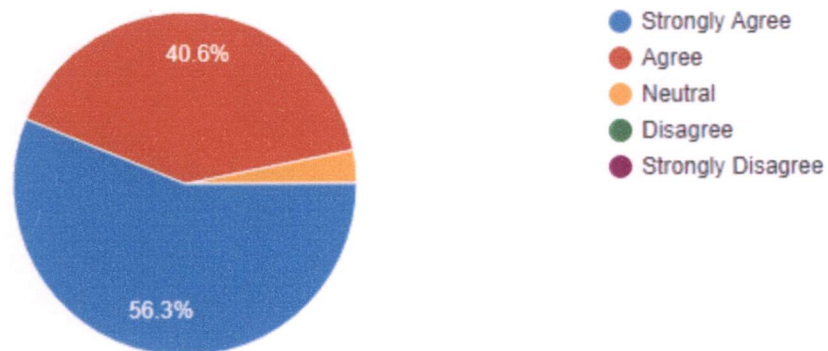

64 responses

Inference: Majority of the participants stated that program conducted was helpful in improving their practical knowledge.

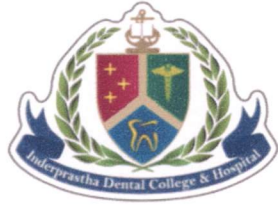

Usage of Audio-Visual Aid was appropriate.

64 responses

Inference: Majority of the participants agreed that the audio-visual aids used during the program were good.

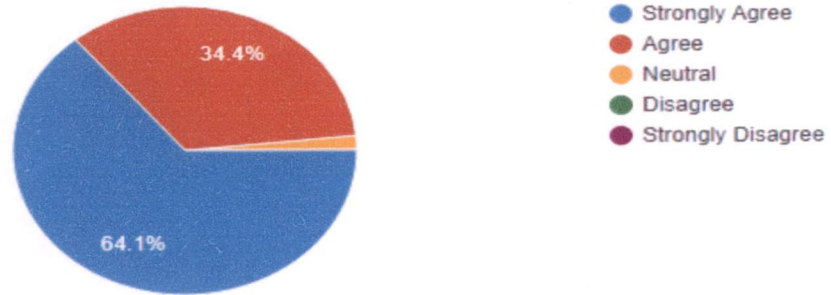

Inderprastha

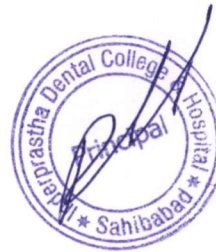

Dental College & Hospital

Will you be interested in attending such events in future.

64 responses

Inference: Majority of the participants agreed and appreciated the conduct of more such programs in the future.

ORAL IMPLANTOLOGY PROGRAMME 2022-23

SUMMARY OF THE EVENT

SL No.	DETAILS	
1.	NAME OF THE DEPARTMENT	DEPARTMENT OF ORAL AND MAXILLOFACIAL SURGERY
2.	TOPIC	ORAL IMPLANTOLOGY
3.	DATE	MODULE I - 5-7 SEPTEMBER MODULE II - 9-11 JANUARY
4.	VENUE	INDERPRASTHA DENTAL COLLEGE AND HOSPITAL
5.	SPEAKER	DR AKASH SACHDEVA
6.	ORGANISING SECRETARY	DR KANNU SHARMA
7.	DURATION	48 HOURS
8.	NO OF PARTICIPANTS	72

DESCRIPTION ABOUT THE PROGRAMME

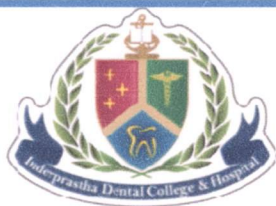

MODULE 1 (3 DAYS) - SURGICAL PHASE

- Introduction to basic Implantology
- Application and scope - dental implants in private practice
- Bone biology - anatomy and healing
- Diagnosis and treatment planning
- Radiographic evaluation of OPG/CBCT/IOPA
- Asepsis and sterilization protocols
- Introduction to implant system (component and armamentarium)
- Surgical techniques and suturing techniques
- Management of Surgical Complications
- Role of multidisciplinary approach in Implantology
- Hands on : Placement of implants on typhodont mandibles
- Live Demonstration : Implant placement by mentor
- Surgical experience : implant placements by participants in live patients

- Management of surgical complications
- Role of multidisciplinary approach in implantology
- **Hands on: Placement of implants on typodont mandibles**
- **Live demonstration: Implant placement by mentor**
- **Surgical experience: Implant placement by participants in live patients.**

Module 2 (3 days) - Prosthetic phase

- Principles of occlusion in implant supported prosthesis
- Loading protocols
- Stage 2 surgery: Technique and demonstration
- Stage 2 surgery by participants on patients
- Hands on: Impression procedures and techniques
- Concluding session: Newer advances, bone grafting, platelet rich fibrin and future of implantology

Faculty:

Dr. (Prof.) Akash Sachdeva
Dept. of Oral & Maxillofacial Surgery

Dr Akash Sachdeva is a consultant Maxillofacial Surgeon and Implantologist in New Delhi, with clinical experience of more than 15 years. He graduated from Amravati University in 1996 and did his Masters in Oral and Maxillofacial Surgery in 2001 from the Buddha Institute of Dental Sciences and Hospital, Magadh University.

His practice is dedicated to the field of maxillofacial surgery, and he has a keen interest and vast experience in dealing with dental implants, dental trauma, as well as oral pathologies. He is a full-time teaching faculty with a dental college in the National Capital Region of Delhi. Dr. Sachdeva is consultant to various hospitals in Delhi like Jaipur Golden Hospital, Sunderlal Jain Hospital, Bhagat Hospitals, Apollo White Clinics, Nova Specialty Hospital, Sant Parmanand Hospital, Aakash Healthcare, and Max Healthcare in Gurgaon etc.

Dr. Sachdeva has attended various national and international conferences, as well as global symposiums on dental implants over the years. He has completed various courses on full-mouth rehabilitation with dental implants, courses related to hard and soft tissue regeneration for optimal implant aesthetics with Dr. Lewis Cummings, CA, and innovations in computer guided surgery with Dr. Michael Klein, in April 2009 in Chicago, USA.

For the past 5 years, Dr. Sachdeva has been imparting training programs on implants at the Finishing Touch Academy in New Delhi, which specializes in basic and advanced implantology and general dentistry.

Dr. (Prof.) Vikram Blaggana
HOD Dept. of Periodontics

Dr. (Prof.) Vikram Blaggana is the Head of Department of Periodontology and Oral Implantology at Inderprastha Dental College and Hospital, Sahibabad, Ghaziabad in UP, and is presently the Executive Committee member of the Indian Society of Periodontology. He completed his Postgraduation (MDS) from the prestigious Punjab Govt. Dental College & Hospital, Amritsar in the year 2002. He has been associated with teaching as well as clinical practice ever since.

Dr. Blaggana did a Certificate Course in Implantology in 2005 and attained his Fellowship with the International Congress of Oral Implantologists (FICOI), USA in 2009. He has also been inducted as a Fellow of the prestigious International College of Dentists (FICDI), USA in 2011.

Dr. Blaggana has numerous international and national publications as author in various journals of dentistry and has been the Guest Speaker for various conferences. He is also involved in imparting training in implantology to students at various forums.

Dr. (Prof.) Ajai Gupta

Dr. (Prof.) Ajai Gupta did his graduation in 1996, followed by advanced training in Implantology from Nova Southeastern University in 2004. He also completed a one year Certificate course in Implantology from KLE Belgaum in 2004. Furthermore, he completed his Masters in Prosthodontics in 2006. He is presently working as a Professor in the Dept. of Prosthodontics at Inderprastha Dental College and Hospital.

Dr. (Prof.) Suprabha Rathee

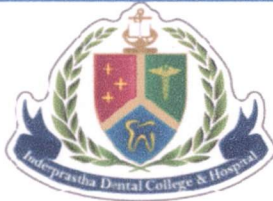

Dr Suprabha Rathee did her graduation in 2007 from Government Dental College Rohtak followed by post graduation in prosthodontics in 2012. She is in implant dentistry since 2009 and specialized in smile makeover as well as full mouth rehabilitation cases. At present she is working as a professor in Inderprastha Dental College.

Dr. Trisha Rastogi

She is currently working as a Reader in Inderprastha Dental College and Hospital. She has also worked as mentor for dental pulse academy for North India branch for NEET post graduate studies. She is a specialist in CBCT reporting and has worked for many esteemed diagnostic centres.

Course contents:

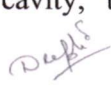

- Introduction to Damon System- A Passive Self Ligation Bracket System
- Damon System and its Pillars- Brackets, High-tech wires & Philosophy
- Introduction to Vector TAS-TAD System. What, When & How

Summary of the program:

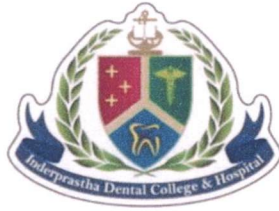

Prof. Dr. M.S. Kannan, MDS gave a lecture on Damon Philosophy & The system Advantage and Temporary Anchorage Devices (TADs) on 23rd august 2022. Dr. Kannan commenced his lecture by revising the evolution of bracket system starting from Angle's system to the Damon system. He discussed about the day to day risks an orthodontist faces and how Damon ensures that risks such as root resorption, marginal bone loss, over retraction, Untoward Anchor Loss, Delayed Treatment time are supervised or minimized. He gave an insight into TADs biomechanics, sites of placement of IZC and buccal shelf implants and their appliance design. He enlightened us with the modern TAD system known as VECTOR TAS by ORMCO. Lastly, he presented some of his successfully finished orthodontic treatment cases with Damon system and TADs (Temporary Anchorage System). The lecture was concluded by a hands-on workshop of the Vector TAS. Each participant got to use the system on simulation models.

Program Outcome:

This program taught the PG students regarding Damon system's ability to improve clinical performance by using Optimum Force levels for tooth movement, Efficient Mechanics – Utilizing 100% effort to effect Faster treatment, explore arenas of space gaining – before concluding into extractions. This value-added course gave an understanding on TADs, their materials, shapes and sizes for different locations in the oral cavity, their biomechanics stability and failures.

PROGRAMME BROCHURE

Ormco™

INCREASING CLINICAL EFFICIENCY WITH DAMON AND VECTOR-TAS

Dr MS Kannan

Head of Orthodontics, Faculty of Dentistry,
Sree Balaji Dental college, Chennai

Date: 23rd August, 2022

Time: 9 AM to 3:30 PM

Ormco in association with Inderprastha Dental College & Hospital,
Ghaziabad, Uttar Pradesh

- **Dr Kannan did his masters from AB Shetty College of Dental Sciences, Mangalore in 2002. Dr has 20 years of private practice at Chennai and has been associated with Sree Balaji Dental College for 17 years and currently serving the position of Head of Department at the same university.**
- **Presented a Paper at Royal College of Surgeons, Edinburgh on 23rd September 2015 at the Mid Year Convention of Indian Orthodontic Society conducted with the Royal College of Edinburgh, Year 2015. Dr Has also conducted APAC Webinar for Ormco on the topic of "PHILOSOPHY OF DAMON"**

Key Learnings:

- **The role of disarticulation importance and role of elastics**
- **How PSL is beneficial in management of Class III cases**
- **Optimal finishing in Class III cases**

Organizing Committee:

Program Report: Biopsy Tissue Processing

SUMMARY OF PROGRAM

1	TITLE	BIOPSY TISSUE PROCESSING
2	Speaker	Dr Mayura Paul
3	Day 1 (18 th Aug 2022)	<ul style="list-style-type: none">• Lectures:-<ul style="list-style-type: none">➢ Biopsy➢ Grossing of the tissue➢ Processing➢ Introduction to various reagents used in processing• Demonstration of the steps in tissue processing• Hands on by participants
	Day 2 (19 th Aug 2022)	<ul style="list-style-type: none">• Lectures:-<ul style="list-style-type: none">➢ Preparation of block➢ Section cutting➢ Staining• Demonstration of the further steps• Hands on by participants
4	Time	9:00AM to 4:30 PM
5	No. of Hours	15 Hours
6	No. of Participants	89

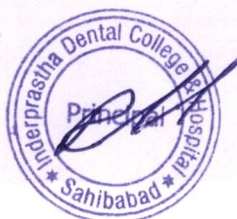

The speaker for the course was Dr Mayura Paul.

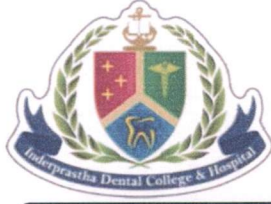

She enlightened the students about the various aspects of Biopsy and Biopsy Tissue Processing including the Types of Biopsy, their Indications, Contra-indications, Advantages & Disadvantages, with the demonstration followed hands on workshop for all the steps involved. The purpose of the course was to enhance the theoretical & practical knowledge of the students about this topic.

It was successfully attended by 89 students.

Details of the program

Biopsy Tissue Processing

Date : 18th & 19th august 2022

Day 1		
9:00AM – 10:00AM	Lecture 1	What is Biopsy?
10:00 AM– 11: 00AM	Lecture 2	Grossing & Processing
11:00AM – 12:00PM		Demonstration
12:00PM – 1:00PM		Hands on workshop (in groups)
1:00PM – 2:00PM	Lunch Break	
2:00 PM– 3:30PM	Lecture 3	Different types of Biopsy & their Indications, Contraindications, Advantages & Disadvantages
3:30PM – 4:30PM	Lecture 4	Introduction to various reagents used in processing
Day 2		
9:00AM – 11:00 AM	Lecture 1	Preparation of block, Section cutting & Staining
11:00AM – 1:00PM		Preparation of block – demonstration & Hands on workshop
1:00 PM – 2:00PM	Lunch Break	
2:00PM – 4:30PM		Staining of the slides – Demonstration & Hands on workshop
